2013 Leap Grants

[2013 Leap Grants for Non-Profits](#)

(click here)

Living Strong with Integrity is a summer program for our Children of Inmates to help them with increasing and stabilizing their skill set in the sciences, technology, engineering, and mathematics as well as reading. Without access to a computer and internet, many of these children will fall behind in their school work, where currently they may be at or just below grade average.

By voting, you are enabling our Living Stones' staff and the ability to hire three students to provide a great summer opportunity and learning environment for children and their families. We work with ages five to twelve. As collaborators with Florida A&M University, our goal is to work with twenty five students within the Bond community.

Again, you may be part of the solution by voting for us today to assist students with getting and staying ahead of their studies.

V-O-T-E Today by either clicking on 2013 Leap Grants for Non-Profits above or below!!
